## Work experience

### Nolve developments [Senior UI/UX Designer](#)

*September 2017* Ideation, wireframing, UI/UX design, prototyping and  
*– present* implementation of user interface. Brand identity development for isolation and digital security products. The challenge is to make the platform interface as easy and functional as possible .

### Orcha Healthcare (UK) [Senior UI/UX Designer](#)

*October 2016* UI/UX design and frontend development of web projects  
*– March 2017* for the national health service (NHS). Coordination and implementation of user testing and user centered design (UCD) techniques.  
I had the opportunity to apply new UX techniques.

### Enova IT Solutions [UI/UX Supervisor - Art Director](#)

*January 2015* Management of the UI/UX design department.  
*– August 2016* Redesigning, customization and improvements for e-commerce projects.  
I deepened into the main UX and user-centered design (UCD) methodologies.

### Freelancer [Web Designer - UI/UX Consultant](#)

*March 2013* Development of web projects based mainly on content  
*– January 2015* management systems (CMS). Interface customization for mobile devices (RWD).  
I learned the real needs and expectations of the clients.

### Team-Interactive [UI Designer - Graphic Designer](#)

*September 2008* Online projects development for clients such as  
*– February 2013* Telefonica, Toyota or Sun Microsystems.  
Ideation, conceptualization, interaction design, graphic design, layout and programming.  
I acquired an overview of the different parts and phases of a project.

### Directa&mente [Web Designer - Creative Programmer](#)

*April 2008* Graphic design, layout and creative programming.  
*– July 2008* We developed a successful advertising campaign for Peugeot that was mentioned in the media.  
I helped a small but well-coordinated team achieve great results.
